

PREREQUISITES

There are no prerequisites for this Level 1 course

COURSE OUTLINE

There are three main areas that we will be studying in this course:

1. Extreme Natural Events: A study of a significant extreme natural event
2. Population: A study of the New Zealand population
3. Skills: An investigation into the common skills used in geography

ASSESSMENT

This course covers both internal and external assessments. The national external examination is worth 12 credits toward NCEA while the internal assessments account for 13 credits. (credit total to be confirmed in 2016)

WHERE DOES IT LEAD?

Year 11 Geography leads to the Year 12 and Year 13 courses. It provides students with skills for many jobs, especially those that involve dealing with people, interpreting information and report writing. Specific employment options would include: farming, travel, service industries, government and manufacturing.

CONTRIBUTION

The only costs for this course might be for a fieldtrip if transport was required.

LITERACY/NUMERACY LEVEL 1

There are 21 credits in this course that can count towards the Level 1 literacy requirements. There are also two standards (8 credits) that can count toward the numeracy requirements for Level 1.
