

TECHNOLOGY – MATERIALS – METAL MINI BIKE

LEVEL 2

PREREQUISITES

Level 1 Materials Technology. A minimum of 20 Level 1 credits are required for entry into this course.

If entry requirements are not met, an interview with the HoD or Teacher in Charge is required.

COURSE OUTLINE

The course will focus on Engineering Industry Unit Standards to work towards a certificate in Level 2 Mechanical Engineering.

Students will work at Level 2 Industry Unit Standards.

ASSESSMENT

Unit Standards are internally assessed and externally moderated.

Students will complete practical and written tests for most, if not all, Unit Standards entered.

WHERE DOES IT LEAD?

To Level 3 course in Materials Technology. To entry into trades, trade training and Tertiary training.

COSTS

The cost of building a mini bike will be \$480. A deposit must be paid by the end of November so that kit sets can be ordered.
